**FF conference**

### **'Implementing Fieldbus'**

This Foundation™ Fieldbus End Users Council Australia (Inc) seminar is a major event which brings together international experts to present their experience around the practical theme of "UP and RUNNING – FF End Users – their Experiences". The line up of International and local speakers again ranks as one of the best ever. The presentations cover a diverse subject range including :-

- Alunorte Alumina Refinery FF Project
- Specification / Implementation of FF
- Foundation Fieldbus – Future Directions
- FF in the Ravensthorpe Nickel Project
- Physical Layer Diagnostics / Monitoring
- Planning FF-SIS in the Process Industry
- Digital Fieldbus in Mineral Processing
- Maintaining Functional Value in FF
- Redundant FF H1 Segments

Foundation fieldbus is the next quantum leap in DIGITAL Instrument Technology. It has the potential to provide huge savings and gains in the efficiency of a plant. Come along and reap those benefits - networking and learning from some of the most respected Foundation fieldbus experts in the world.
